# Fourth Annual Catalogue

OF

NORTH AMERICAN

# PERENNIAL PLANTS,

ORCHIDS, SHRUBS, CLIMBERS,

Alpine, Aquatic, and Bog Plants,

RARE FERNS, &c.,

FOR 1881.

---

SOUTH WICK, MASS.

UNITED STATES OF AMERICA.

Clark & Story, Printers, Westfield, Mass.

# Introduction.

---

N presenting my Catalogue of NORTH AMERICAN PERENNIAL PLANTS for 1881, I wish to thank those who have favored me with their orders, and for the interest they have shown in extending the circulation of my Catalogue. A large number of desirable species have been added this year. Some of them are rare, requiring of the collectors a journey of 200 miles or more into the mountains to obtain them; and as all of these cannot be collected at the same season of the year, it is difficult to get them collected either in small or large quantities late in the season; therefore, orders should be sent in as early as possible. My facilities are greatly increased for obtaining rarities from little unexplored regions of the great mountain chains west of the Mississippi.

Parties wishing for any North American Plants not found in this List should make their wishes known, and their interests shall be properly looked after.

The common names are omitted this year, as but few of the new ones have a common or local name.

## TERMS.

All bills will be due on receipt of the plants, unless by special agreement. Small orders should be accompanied by cash.

Money may be sent in Registered Letters to Southwick, Hampden Co., Mass., or by Post-Office Orders upon the Postmaster at Westfield, Hampden Co., Mass. Larger amounts can be sent by Draft on New York or Boston, payable to my order.

*Foreign* Remittances may be sent by International Post-Office Orders, payable at Westfield, Mass., U. S. A., or by Drafts on New York or Boston.

The prices quoted are for 12 and 100 roots. Parties wishing for more or less quantities will be furnished prices on application. *The Trade* furnished in quantity at lower rates.

All plants sent out are securely packed and properly labeled. No charge for packing.

## HERBARIUM SPECIMENS OF FERNS.

I will send to any address in the United States, postpaid, Herbarium specimens of those marked by a star, 1 *Polypodium* from Florida, and 1 other from California, not in my List, 40 odd species in all, on receipt of \$4.50.

 This List cancels all former quotations.

All communications should be addressed,

EDWARD GILLETT,

SOUTHWICK,

HAMPDEN COUNTY, MASS.
